Education

Minerva University San Francisco, CA
Bachelor of Arts, Computer Science & Cognitive Science *Expected May 2028*

- **GPA:** 3.83/4.0
- **Relevant Coursework:** Single and Multivariate Calculus, Linear Algebra, Data Structures and Algorithms, Complex Systems, Formal Analysis
- **Honors & Fellowships:** L'Oréal Brandstorm 2026 National Winner, 180 DC Fellow, AI Consensus Fellow.

Pearson College UWC Victoria, BC
International Baccalaureate *Aug 2022- May 2024*

Experiences

Dedalus Labs (YC S25) Jun 2026 – Aug 2026
Technical Product & Growth Intern *San Francisco, CA*

- Built CLI authentication system with self-hosted auth server and service accounts for API key provisioning.
- Redesigned onboarding around in-browser terminals, set up 46 tracked events to identify activation drop-offs.
- Organized and hosted a YC Startup School event that generated a 1,100+ person waitlist.

Matcha November 2025 – March 2026
Chief Product Officer *San Francisco, CA*

- Acquired by productivity apps company to integrate into its suite of study tools.
- Developed a digital notebook turning handwritten notes into AI flashcards and practice tests for active recall.
- Led product, branding, and growth initiatives that brought the product to 320 active users in its first month.

Axlora May 2025 – Aug 2025
Technical Project Management Intern *San Francisco, CA*

- Managed SOC 2 and GDPR compliance projects for 20+ enterprise customers with zero audit exceptions.
- Built an internal application tracking 1,400 control tests, giving teams a single view of upcoming requirements.
- Owned Axlora's visual brand end-to-end, creating its brand kit, website, and all customer-facing assets.

TELUS Spark Science Jun 2023 – Aug 2024
Robot Operator & Science Guide *Calgary, AB*

- Led 100+ hours of chemistry lab demos for 150+ daily visitors, delivering hands-on science experiences.
- Operated Boston Dynamics' Spot robot and Unitree's quadruped robot as the center's first trained operator.
- Built a sensor-reactive robot fetch feature and interactive Scratch program to teach coding to children of all ages.

Projects

Minerva Marketplace | *PostgreSQL, OAuth, Cron Jobs*

- Built a peer-to-peer marketplace for 1,000 students to buy and sell goods across international study rotations.
- Designed PostgreSQL schemas for users and listings; implemented cron-based automated email notifications.

Cyber For Students | *Linux, CLI, Networks*

- Founded an educational non-profit to teach command-line fundamentals to students across 16 countries.
- Provisioned individual Linux VMs for each student to complete 250 custom-built capture-the-flag challenges.

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, HTML, CSS, Swift, MATLAB, SQL
Libraries/Frameworks: PyTorch, React.js, Next.js, Node.js, Gatsby, SciPy, Seaborn, Matplotlib, NumPy, Pandas, WPILib
Tools & Technologies: Linux, Git, Excel, ClickUp, Jira, Linear, PostHog, AWS, Pylon, PostgreSQL, Docker, Cron, Convex, Clerk, OAuth 2.0, JWT, REST APIs
